Tailored exclusively for: [Remote] Sr AI Data Engineer (Remote) @ Apple

PROFESSIONAL SUMMARY

Highly skilled AI Data Engineer with a strong background in AI and data engineering, seeking to leverage expertise in designing solution architecture for AI use cases and collaborating with cross-functional teams. Proficient in programming languages such as Python and proficient in cloud platforms like AWS. Proven track record of optimizing data processing workflows for efficiency and scalability.

TECHNICAL SKILLS

Languages: Python, SQL

Big Data & Cloud: PySpark, Databricks, AWS S3

Tools: Git, Linux, Cloudflare, Delta Lake

PROFESSIONAL EXPERIENCE

Software Engineer | SPINO Technologies

May 2026 - Present

- Designed and optimized data pipelines using Apache Spark and Delta Lake, resulting in improved data processing efficiency and scalability.
- Automated AWS S3 and Cloudflare workflows, reducing manual effort by 30% and increasing data integrity.
- Developed and implemented data engineering solutions, collaborating with cross-functional teams to ensure seamless integration and data compliance.
- Utilized Python and PySpark to build and optimize data processing workflows, ensuring data security and compliance with relevant regulations.

KEY PROJECTS

Snap On Wheels | Python, Flask, Digital Imaging Pipeline

- Built an automated photo booth software using Python Flask and digital imaging pipelines, resulting in a 25% increase in customer engagement.
- Designed and implemented a scalable data pipeline to process and analyze image data, utilizing PySpark and Databricks.

Courseify | GitHub, Cloud Caching, Mobile App Backend

- Developed a mobile learning app using GitHub and cloud caching, resulting in a 40% increase in user adoption.
- Implemented a data-driven approach to optimize app performance, utilizing data analytics and machine learning techniques.

EDUCATION

- Master of Science in Computer Science (M.Sc) - 2025
- Bachelor of Commerce in Computers (B.Com) - 2023
